

# Micro-Abrasive Blasting in a More Powerful Package

*and at a Reduced Price!*

We've recently acquired several pre-owned DirectFlo™ DF1400-1 115 volt models and are making them available for only \$5,000 each. These units have been reconditioned and thoroughly tested by our factory technicians.

If you've wondered how much more throughput you could achieve by upgrading to a larger production quality blaster, now is the best time to get a factory refurbished Comco DirectFlo.

**Only \$5,000.**

All Comco factory reconditioned blasters include a 6-month warranty.

**COMCO INC.**
